

# SECURITY DATA SHEET

(accordingly Regulation (EC) No 1907/2006 and its amendments)

## LAVANDIN EUCALYPTUS

Version No.: v9-

CLP

### 1. IDENTIFICATION OF THE SUBSTANCE/MIXTURE AND THE COMPANY/ENTERPRISE.

#### 1.1. Product identifier.

Product name: **LAVANDIN EUCALYPTUS**

#### 1.2. Relevant identified uses of the substance or mixture and uses not recommended.

Ingredient for industrial use: perfume composition (perfume)

#### 1.3. Information about the supplier of the safety data sheet.

Company : **LAB SAS**  
Address: 1 rue de la clef des champs  
City : 68600 Volgelsheim  
Country : France  
Tel.: +33 (0)3 89 22 77 65  
Email: [office@labsys.fr](mailto:office@labsys.fr)

#### 1.4. Emergency call number.

ORFILA: +33 (0)1 45 42 59 59 (24/7)

### 2. HAZARD IDENTIFICATION .

#### 2.1. Classification of the substance or mixture.

Classification in accordance with Regulation (EC) No 1272/2008

Hazard class/cat.	Hazard phrases	Codes of danger	Hazard statements
Skin Irrit. 2	Corrosion / Skin irritation, category 2	H315	Causes skin irritation.
Skin Sens. 1B	Skin sensitization, category 1B	H317	May cause skin allergy.
Eye Irrit. 2	Serious eye damage / eye irritation, category 2	H319	Causes severe eye irritation.
Aquatic Chronic 2	Hazards to the Aquatic Environment - Chronic Hazard,	H411	Toxic to aquatic organisms, causes long-term adverse effects.

#### 2.2. Labelling elements.

Labelling in accordance with Regulation (EC) No 1272/2008

Hazard Statement: Caution

Hazard Code	Hazard statements
H315	Causes skin irritation.
H317	May cause skin allergy.
H319	Causes severe eye irritation.
H411	Toxic to aquatic organisms, causes long-term adverse effects.

## 4. FIRST AID.

### 4.1. Description of first aid.

#### **If inhaled:**

In case of excessive inhalation, take the person to the open air and keep them in a resting position. Consult a doctor.

#### **In case of contact with the skin:**

Remove contaminated clothing immediately, wash the skin with soap and water and rinse thoroughly for at least 20 minutes. If irritation persists, or if lesions appear, consult a doctor.

#### **In case of contact with the eyes:**

If you wear contact lenses, remove them. In case of contact with the eyes, rinse the eyes thoroughly with water for about twenty minutes. If irritation persists, or if lesions appear, consult a doctor.

#### **If swallowed:**

Rinse the mouth with water. Do not give anything to drink. Do not attempt to induce vomiting and call a doctor.

### 4.2. Main acute and delayed symptoms and effects.

Nothingness.

### 4.3. Indications of possible immediate medical care and special treatments required.

Nothingness.

## 5. FIREFIGHTING MEASURES.

### 5.1. Means of extinction.

**Appropriate extinguishing means :**

# SECURITY DATA SHEET

(accordingly Regulation (EC) No 1907/2006 and its amendments)

## LAVANDIN EUCALYPTUS

Version No.: v9-

CLP

Powder/foam or CO<sub>2</sub> extinguisher. Fight large outbreaks with water spray or alcohol-resistant foam.

### **Inappropriate extinguishing means:**

Do not direct a jet of water directly at the ignited product.

### **5.2. Special hazards resulting from the substance or mixture.**

Combustion releases carbon monoxide, carbon dioxide and smoke. Exposure to substances produced as a result of combustion or decomposition can be dangerous to health.

### **5.3. Advice to firefighters.**

Prevent containers from heating up with water curtains.

Use a self-contained breathing apparatus and a combination intended for firefighting.

## **6. MEASURES TO BE TAKEN IN THE EVENT OF ACCIDENTAL DISPERSAL.**

### **6.1. Personal precautions, protective equipment and emergency procedures.**

Do not smoke. Do not expose to a flame or any potential source of ignition (e.g. electrical equipment). Avoid contact with the skin, as well as inhalation of vapors. Ensure adequate ventilation of the workplace.

### **6.2. Precautions for the protection of the environment.**

Avoid direct discharge to sewers, surface water and groundwater, do not allow them to enter the soil.

### **6.3. Containment and cleaning methods and equipment.**

Absorb the material with inert absorbent powders or granules (sand...)

Large overflows must be absorbed by sand or an inert powder and then destroyed according to the regulations in force. If cloths are used to blot, get rid of them quickly by incineration, as cases of auto-oxidation with spontaneous combustion are known.

Clean the powder with a vacuum cleaner. Wash with water and detergent.

Elimination of gases/fumes by splashing water.

### **6.4. References and other sections.**

For exposure control and personal protective measures, see paragraph 8. For waste disposal considerations, see paragraph 13.

## **7. HANDLING AND STORAGE.**

### **7.1. Precautions to be taken for safe handling.**

Avoid contact with skin and eyes. Wear appropriate gloves and goggles. Ensure adequate ventilation of workplaces.

Follow proper hygiene rules: do not drink, eat or smoke during handling. Do not expose to a flame or any potential source of ignition.

### **7.2. Conditions necessary to ensure the security of storage, taking into account possible incompatibilities.**

Store at a constant temperature, in a cool, dry and ventilated place, away from light, in the original containers if possible, full and tightly closed. Keep away from any source of ignition.

Once opened, any container must be carefully closed and positioned vertically to avoid overturning.

### **7.3. Particular end use.**

Perfume.

### **7.4. Directions for use.**

Homogenize before use

## **8. EXPOSURE CONTROL/PERSONAL PROTECTION.**

### **8.1. Control settings.**

No information is available on Occupational Exposure Limit Values (OELVs).

**LAVANDIN EUCALYPTUS**

Version No.: v9-

CLP

---

## 8.2. Exposure controls / Personal protection.

### 8.2.1. Appropriate technical controls :

Handling should be done at as low a temperature as possible. Ensure good ventilation of the premises.

### 8.2.2. Personal protective measures, such as personal protective equipment:

#### Respiratory protection:

Avoid excessive inhalation of vapours. If necessary, wear a filter mask against gases. (EN14387: 2004 + A1: 2008)

#### Eye protection:

Use protective eyewear, which complies with EN166.

#### Skin protection:

Avoid contact with the skin. Use chemoresistant gloves, if necessary. Nitrile gloves compliant with EN374.

### 8.2.3. Exposure controls related to environmental protection:

Avoid direct discharge to sewers, surface water and groundwater, do not allow them to enter the soil.

## 9. PHYSICAL AND CHEMICAL PROPERTIES.

### 9.1. Information on essential physical and chemical properties.

Appearance: liquid

Color: Colorless to pale yellow

Smell: Agreste - Lavender - Fruity

pH: not suitable

Melting point: not determined

Boiling point: not determined Explosive

properties: not explosive Oxidizing

properties: not determined Vapour pressure:

not determined Density 20°C (d20/4): 0.9028

/ 0.9228

Refractive index at 20°C: 1.4544 / 1.4644

Flash point: 87°C

Viscosity : not determined

### 9.2. Other information.

Nothingness.

## 10. STABILITY AND REACTIVITY.

### 10.1. Responsiveness.

Does not present a risk of reactivity by itself or in contact with water. Avoid contact with oxidizing agents.

For any use in alcoholic, it would be better to use water with a slightly acidic pH (6-6.5).

### 10.2. Chemical stability.

Stable under normal ambient conditions.

### 10.3. Possibility of dangerous reactions.

No dangerous reaction under normal conditions of use.

### 10.4. Conditions to avoid.

Avoid temperatures near or above the flash point. Do not heat closed containers.

### 10.5. Incompatible materials.

Keep away any oxidizing agents or highly alkaline or acidic materials.

### 10.6. Dangerous de-composition products.

No known hazardous decomposition products under recommended storage conditions.

## 11. TOXICOLOGICAL INFORMATION.

**SECURITY DATA SHEET**  
(accordingly Regulation (EC) No 1907/2006 and its amendments)

**LAVANDIN EUCALYPTUS**

Version No.: v9-

CLP

**11.1. Information on toxicological effects.**

**11.1.1. Acute toxicity :**

This information is not available.

**11.1.2. Irritation :**

This information is not available.

**11.1.3. Awareness :**

This information is not available.

**11.1.4. Mutagenicity :**

This information is not available.

Perfumery products must not be ingested under any circumstances. Keep them away from any food and drink.

**12. ECOLOGICAL INFORMATION.**

**12.1. Toxicity.**

This information is not available.

For all substances listed in paragraph 3 and classified AS EH A1 and/or EH C1, the M FACTOR shall be equal to 1.

**12.2. Persistence and degradability.**

This information is not available.

**12.3. Bioaccumulation potential.**

This information is not available.

**12.4. Mobility in the ground.**

This information is not available.

**12.5. Results of PBT and vPvB assessments.**

This information is not available.

**12.6. Other harmful effects.**

Unknown.

**12.7. Water pollution class**

WGK: 2

On the basis of the available eco-toxicological data, this product is classified according to the European criteria for the environmental classification of preparations.

**13. DISPOSAL CONSIDERATIONS .**

**13.1. Waste treatment methods.**

**Product:**

Must be directed to an approved landfill or incinerated in an approved centre while complying with local regulatory requirements. Avoid disposal through the sewer and dispersion into the environment.

**Contaminated packaging:**

Empty packaging must be sent to a site approved for waste treatment for recycling or disposal.

**14. TRANSPORT INFORMATION .**

CLP Section 2 version  
Section 3 amended

The information contained in this sheet is based on the state of our knowledge of the product concerned, as of the date indicated. The purpose of this Safety Data Sheet is to provide information to the user, to enable him to assess the risks to safety and health during the transport, storage or use of the product in the workplace. Users' attention is also drawn to the possible risks involved when a product is used for purposes other than that for which it is designed.
