Keep patient calm, remove to fresh air, seek medical attention.

On skin contact :

If irritation appears, remove any contaminated clothing . Wash affected areas thoroughly with soap and water.
If irritation persists or any sign of tissue damage is apparent, obtain medical advice.

On contact with eyes :

Immediately wash affected eyes for at least 15 minutes under running water with eyelids held open,consult an eye specialist

On ingestion :

Rinse mouth immediately with water. Don't drink anything. Do not intend make vomit and seek medical attention.

4.2. Most important symptoms and effects, both acute and delayed.

None.

5. FIRE-FIGHTING MEASURES.

5.1. Extinguishing media.

Suitable extinguishing media :

Foam or powder or CO₂ extinguishers. Combat the important fires with water spray or foam resistant to alcohol.

Unsuitable extinguishing media :

Do not use a direct water jet on the burning product.

5.2. Special hazards arising from the substance or mixture.

As a result of combustion or thermal decomposition reactive subproducts are created (CO₂, CO, NO_x,...) that can become highly toxic and, consequently, can present a serious health risk

5.3. Advice for fire-fighters.

Keep containers cool by spraying with water if exposed to fire.

Use a self contained breathing apparatus and a combination set for the fight against fire.

6. ACCIDENTAL RELEASE MEASURES.

6.1. Personal precautions, protective equipment and emergency procedures.

Do not smoke. Do not expose to flame or any potential source of ignition (eg electrical equipment).
Avoid contact with skin and inhalation of vapors. Ensure adequate ventilation of the workplace.

6.2. Environmental precautions.

Avoid direct discharge to sewer, surface water and groundwater, not make to penetrate into the soil.

6.3. Methods and material for containment and cleaning up.

Absorb material with inert absorbent powder or granules (sand ...)

Major spills should be absorbed by sand or inert powder and destroyed or according to applicable regulations. If rags are used to wipe up, quickly get rid of by incineration, as cases of auto-oxidation with spontaneous combustion are known.

Clean dust with a vacuum cleaner. Wash with detergent and water.

Reduction of gases / fumes with water projection.

6.4. Reference to other sections.

For exposure control and personal protection measures, see section 8.

For considerations of waste disposal, see section 13.

7. HANDLING AND STORAGE.

7.1. Precautions for safe handling.

Avoid contact with skin and eyes. Wear suitable gloves and eye protection. Ensure adequate ventilation of the workplace.
Follow proper hygiene rules : do not drink, eat or smoke while handling. Do not expose to flame or any potential source of ignition.

7.2. Conditions for safe storage, including any incompatibilities.

Store at a constant temperature in a cool, dry, ventilated area away from light, in the original containers if possible, full and sealed. Keep away from sources of ignition.

Once opened, any container must be carefully closed and placed upright to prevent spillage.

7.3. Specific end use.

Perfume.

7.4. Directions for use.

Homogenize before use

8. EXPOSURE CONTROLS/PERSONAL PROTECTION.
