# **Safety Data Sheet**

### f 1 Identification of the substance/mixture and of the company/undertaking

### 1.1 Product identifier

Trade name/designation	: S	cent astro balance.
Article No (user)	: 1	917687.

### 1.2 Relevant identified uses of the substance or mixture and uses advised against

Relevant identified uses	:	Mixture of natural and/or synthetic fragrances.
Uses advised against	:	No data available.

### 1.3 Details of the supplier of the safety data sheet

Supplier	: Name: LAB SAS
	Street: 1 rue de la clef des champs
	Postal code/City: 68600 Volgelsheim
	Country: France :
	Telephone: 0389227765
	E-mail: Office@labsys.fr

### **1.4 Emergency Telephone Number**

#### United Kingdom:

+35625454030 +35 (0) 31 837 9964 (medical professionals) +35 (0) 31 809 2166 (public) In England and Wales: dial 111 ( NHS 111), In Scotland: dial 111 (NHS 24), In Northern Ireland: Contact your local GP or pharmacist during normal hours. During GP Out-of-Hours (www.gpoutofhours.hscni.net/): Belfast HSC Trust, (North & West) 028 9074 4447, (South & East) 028 9079 6220 South Eastern HSC Trust, (North Down & Ards) 028 9182 2344, (Lisburn & Downpatrick) 028 9260 2204, Dalriada Urgent Care (Northern Trust area) 028 2566 3500, Southern HSC Trust 028 3839 9201, Western Urgent Care 028 7186 5195.

### **2** Hazards identification

### 2.1 Classification of the substance or mixture

Classification according to the regulation (EC) n°1272/2008 (CLP) and its amendments

Hazaro	ls id	lentif	ication:
--------	-------	--------	----------

H317Skin Sens. 1H412Aquatic Chronic 3

May cause an allergic skin reaction. Harmful to aquatic life with long lasting effects

### 2.2 Label elements

Label elements according to the regulation (EC) n°1272/2008 (CLP) and its amendments Labelling

**Hazard pictograms** 

Signal word

**Hazard Statements** 

#### H317 May cause an allergic skin reaction.

H412 Harmful to aquatic life with long lasting effects

### Supplemental Hazard information (EU)

EUH208 Contains benzyl salicylate. May produce an allergic reaction.

#### **Precautionary Statements - Prevention**

P280 Wear protective gloves/protective clothing/eye protection/face protection.

#### **Precautionary Statements - Response**

P302+P352 IF ON SKIN: Wash with plenty of water.

P333+P313 If skin irritation or rash occurs: Get medical advice/attention.

P362+P364 Take off contaminated clothing and wash it before reuse.

#### **Precautionary Statements - Disposal**

P501 Dispose of contents/container in accordance with local regulations.

#### Contains

benzyl salicylate, 3-(p-ethylphenyl)-2,2-dimethylpropionaldehyde, (2E)-2-(phenylmethylidene)octanal, 3,7-dimethyloctan-3-ol

### 2.3 Other hazards

According to Regulation (EU) 1907/2006, no substances are assessed as PBT or vPvB. According to Regulation (EU) 2017/2100 or Regulation (EU) 2018/605, no substances are known to have endocrine disrupting properties.

# **3** Composition/information on ingredients

### 3.2 Mixtures

In accordance with the product knowledge, no nanomaterials have been identified. The mixture does not contain any substances classified as Substances of Very High Concern (SVHC) by the European CHemicals Agency (ECHA) under article 57 of REACH: http://echa.europa.eu/fr/candidate-list-table.

### Remark

Text phrases and H- EUH-: see section 16.

# **4** First aid measures

### 4.1 Description of first aid measures

### **General information:**

In case of accident or unwellness, seek medical advice immediately (show directions for use or safety data sheet if possible).

Do not leave affected person unattended.

Remove victim out of the danger area.

Keep affected person warm, still and covered.

### Following inhalation:

Remove person to fresh air and keep comfortable for breathing.

#### Following skin contact:

Remove contaminated, saturated clothing immediately.

After contact with skin, wash immediately with plenty of water and soap.

Take off contaminated clothing.

In case of skin reactions, consult a physician.

### Following eye contact:

In case of eye irritation consult an ophthalmologist.

Rinse immediately carefully and thoroughly with eye-bath or water.

### Following ingestion:

Never give anything by mouth to an unconscious person or a person with cramps. IF SWALLOWED: Rinse mouth. Do NOT induce vomiting.

### Self-protection of the first aider:

First aider: Pay attention to self-protection!.

### 4.2 Most important symptoms and effects, both acute and delayed

The most important known symptoms and effects are described in the labelling (see section 2.2) and/or in section 11.

### Indication of any immediate medical attention and special treatment needed

### Notes for the doctor:

Treat symptomatically.

## **5** Firefighting measures

### 5.1 Extinguishing media

### Suitable extinguishing media:

Foam.

4.3

Extinguishing powder. Carbon dioxide (CO2).

Sand.

Unsuitable extinguishing media:

Strong water jet.

### 5.2 Special hazards arising from the substance or mixture

Formation of toxic gases is possible during heating or in case of fire.

### 5.3 Advice for firefighters

Wear a self-contained breathing apparatus and chemical protective clothing. **Additional information** 

Do not inhale vapors and fumes.

Co-ordinate fire-fighting measures to the fire surroundings.

Move undamaged containers from immediate hazard area if it can be done safely.

Use caution when applying carbon dioxide in confined spaces. carbon dioxide can displace oxygen.

Use water spray jet to protect personnel and to cool endangered containers.

Collect contaminated fire extinguishing water separately. Do not allow entering drains or surface water.

# 6 Accidental release measures

### 6.1 Personal precautions, protective equipment and emergency procedures

Use personal protection equipment. Remove persons to safety.

### 6.2 Environmental precautions

Ensure that waste is collected and contained. In case of gas escape or of entry into waterways, soil or drains, inform the responsible authorities. Avoid release to the environment. Cover drains. Ensure all waste water is collected and treated via a waste water treatment plant. Do not allow to enter into soil/subsoil. Do not allow to enter into surface water or drains. Retain contaminated washing water and dispose it. Contain leaks or spills within cabinets with removable trays.

### 6.3 Methods and material for containment and cleaning up

Treat the recovered material as prescribed in the section on waste disposal. Collect in closed and suitable containers for disposal. Clean contaminated objects and areas thoroughly observing environmental regulations. Absorb with liquid-binding material (e.g. sand, diatomaceous earth, acid- or universal binding agents). Wipe up with absorbent material (eg. cloth, fleece).

### 6.4 Reference to other sections

Safe handling: see section 7. Disposal: see section 13. Personal protection equipment: see section 8.

### Additional information

Not available

### Handling and Storage

### 7.1 Precautions for safe handling

### **PROTECTIVE MEASURES:**

Avoid contact with skin, eyes and clothes. Wear personal protective clothing (see section 8). Sewers and ducts must be protected against the entry of the product. Do not put any product-impregnated cleaning rags into your trouser pockets. Provide for retaining containers, eg. floor pan without outflow. Avoid breathing gas/fumes/vapour/spray.

### Advices on general occupational hygiene:

Wash hands before breaks and after work. Street clothing should be stored seperately from work clothing. Wash contaminated clothing before reuse.

#### Remove contaminated, saturated clothing immediately.

### 7.2 Conditions for safe storage, including any incompatibilities

Keep container tightly closed in a dry, cool, and well-ventilated place.

# **i**tdb

### Scent astro balance

Keep product in original, well-closed packaging, in a well-ventilated, dry place, away from sources of ignition and protected from light.

Store in accordance with local/national regulations, observing the warnings on the label.

#### **Requirements for storage rooms and vessels:**

Use isolated drainage to prevent discharge to soil.

#### Advice on joint storage:

Keep away from food, drink and animal feedingstuffs.

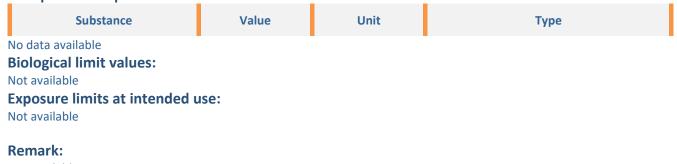

### 7.3 Specific end uses

Apart from the uses mentioned in section 1.2 no other specific uses are stipulated.

# 8 Exposure controls/personal protection

### 8.1 Control parameters

### **Occupational exposure limits:**

Not available

### 8.2 Exposure controls

### **Appropriate engineering controls:**

Technical measures and the application of suitable work processes have priority over personal protection equipment. **Individual protection measures, such as personal protective equipment:** 

	,	h
Eye/face protection	:	Suitable eye protection:
		No data available.
Skin protection	:	Hand protection:
		Suitable gloves type:
		Wear protective gloves.
		Additional hand protection measures: Do not wear gloves near machines and rotating tools.
		Use gloves only once.
		Remark:
		When handling with chemical substances, protective gloves must be worn
		with the CE-label including the four control digits.
		The quality of the protective gloves resistant to chemicals must be chosen
		as a function of the specific working place concentration and quantity of
		hazardous substances.
		For special purposes, it is recommended to check the resistance to
		chemicals of the protective gloves mentioned above together with the
		supplier of these gloves.
		Breakthrough times and swelling properties of the material must be taken
		into consideration.
		Body protection:
		Suitable protective clothing:
		Lab coat.
<b>Respiratory protection</b>	:	Suitable respiratory protection apparatus:

No data available.

### Environmental exposure controls:

Not available

**Consumer exposure controls:** 

Not available

### Additional information

Not available

# **9** Physical and chemical Properties

### 9.1 Information on basic physical and chemical properties

Physical state Colour	:	Liquid
Odour	-	Light Yellow To Green Brown
	•	Flowery - Fruity
рН	:	Not available
Melting point/freezing point	:	Not available
Initial boiling point and boiling range	:	Not available
Flash point	:	97°C
Flammability	:	Not available
Upper/lower flammability or explosive	:	Not available
limits		
Vapour pressure	:	Not available
Vapour density	:	Not available
Relative density	:	0.891 - 0.921
Solubility(ies)	:	Soluble
Partition coefficient n-octanol/water	:	Not applicable
(log value)		
Auto-ignition temperature	:	Not available
Decomposition temperature	:	Not available
Kinematic viscosity	:	Not applicable
Solubility in other Solvents	-	
Particle characteristics		Not applicable
Faiture characteristics	•	Νοι αρρικαρίε

### 9.2 Other safety information

Information concerning to the classes of physical hazards Not available Other security characteristics Not available

# **10** Stability and Reactivity

### 10.1 Reactivity

No data available.

### **10.2 Chemical stability**

The product is stable when stored at normal ambient temperatures.

### **10.3** Possibility of hazardous reactions

No hazardous reaction when handled and stored according to provisions.

### **10.4** Conditions to avoid

No data available.

### **10.5** Incompatible materials

# **itdb**

No data available.

### 10.6 Hazardous decomposition products

Does not decompose when used for intended uses.

### **Additional information**

Not available

# **11** Toxicological information

### 11.1 Information on hazard classes as defined in Regulation (EC) No 1272/2008

Acute oral toxicity: The product is not classified. Substances: Not available Acute dermal toxicity: The product is not classified. Substances: Not available Acute inhalation toxicity: The product is not classified. Substances: Not available Skin corrosion/irritation: The product is not classified. Substances: Not available Serious eye damage/irritation: The product is not classified. Substances: Not available **Skin sensitisation:** The product is classified Skin Sens. 1 according to the referenced regulation. May cause an allergic skin reaction. Substances: Not available Specific target organ toxicity (repeated exposure): The product is not classified. Substances: Not available Specific target organ toxicity (single exposure): The product is not classified. Substances: Not available **Carcinogenicity**: The product is not classified. Substances: Not available **Reproductive toxicity:** The product is not classified. Substances: Not available

#### Germ cell mutagenicity: The product is not classified.

Substances:

#### Not available

### Sensitisation to the respiratory tract:

The product is not classified. Substances: Not available

### Additional information:

Not available

### 11.2 Information on other hazards

### **Endocrine disrupting properties:**

According to Regulation (EU) 2017/2100 or Regulation (EU) 2018/605, no substances are known to have endocrine disrupting properties.

# 12 Ecological information

### 12.1 Toxicity

Harmful to aquatic life with long lasting effects. Substances: Not available

### 12.2 Persistence and degradability

The product has not been tested. **Substances:** Not available

### 12.3 Bioaccumulative potential

The product has not been tested. **Substances:** Not available

### 12.4 Mobility in soil

The product has not been tested. **Substances:** Not available

### 12.5 Results of PBT and vPvB assessment

According to Regulation (EU) 1907/2006, no substances are assessed as PBT or vPvB.

### **12.6 Endocrine disrupting properties**

According to Regulation (EU) 2017/2100 or Regulation (EU) 2018/605, no substances are known to have endocrine disrupting properties.

### 12.7 Other adverse effects

Not available

### Additional ecotoxicological information

Not available

## **13** Disposal considerations

### 13.1 Waste treatment methods

### **Product/Packaging disposal:**

### Waste codes/waste designations according to EWC/AVV:

The allocation of waste identity numbers/waste descriptions must be carried out according to the EEC, specific to the industry and process.

### Waste treatment options:

### **Appropriate disposal/Product:**

Waste requiring special supervision.
Dispose of waste according to applicable legislation.
Delivery to an approved waste disposal company.
Appropriate disposal/Package:

Non-contaminated packages must be recycled or disposed of.
Contaminated packing must be completely emptied and can be reused after proper cleaning.
Packing which cannot be properly cleaned must be disposed of.
Handle contaminated packages in the same way as the substance itself.
Dispose of waste according to applicable legislation.

Remark:

For recycling, contact manufacturer.
Collect the waste separately.
Consult the appropriate authorities about waste disposal.
Do not mix with other wastes.
The waste is to be kept separate from other types of waste until its disposal.

Concerning the waste it has to be checked, whether a transport authorisation is required.
