2 Hazards identification

section

2.1 <u>Classification of the substance or mixture</u>

Classification according to the regulation (EC) n°1272/2008 (CLP) and its amendments

Hazards identification:

H317Skin Sens. 1BH319Eye Irrit. 2H411Aquatic Chronic 2

May cause an allergic skin reaction. Causes serious eye irritation Toxic to aquatic life with long lasting effects.

2.2 Label elements

Label elements according to the regulation (EC) n°1272/2008 (CLP) and its amendments

Labelling

Hazard pictograms

Signal word

Hazard Statements

- H317 May cause an allergic skin reaction.
- H319 Causes serious eye irritation
- H411 Toxic to aquatic life with long lasting effects.

Supplemental Hazard information (EU)

EUH208 Contains 2-isopropoxyethyl salicylate, (ethoxymethoxy)cyclododecane, piperonal, cis-hex-3-en-1-yl methyl carbonate, [3R-(3α,3aβ,6β,7β,8aα)]-octahydro-6-methoxy-3,6,8,8-tetramethyl-1H-3a,7-methanoazulene, 3,7-dimethyloctan-3-ol. May produce an allergic reaction.

Precautionary Statements - Prevention

- P272 Contaminated work clothing should not be allowed out of the workplace.
- P273 Avoid release to the environment.
- P280 Wear protective gloves/protective clothing/eye protection.

Precautionary Statements - Response

P302+P352IN CASE OF CONTACT WITH SKIN: Wash thoroughly with water and soap. Rinse well.P305+P351+IN CASE OF CONTACT WITH EYES: rinse carefully with water for several minutes.P338P333+P313P333+P313If skin irritation or rash occurs: Get medical advice/attention.P337+P313If eye irritation persists: Get medical advice/attention.P362+P364Take off contaminated clothing and wash it before reuse.P391Collect spillage.

Precautionary Statements - Disposal

P501 Dispose of the content/container at a waste collection center according to local, national, or international regulations.

Contains

3,7-dimethyloctan-3-ol, (ethoxymethoxy)cyclododecane, 2-isopropoxyethyl salicylate, $[3R-(3\alpha,3a\beta,6\beta,7\beta,8a\alpha)]$ -octahydro-6-methoxy-3,6,8,8-tetramethyl-1H-3a,7-methanoazulene

2.3 Other hazards

In accordance with Regulation (EU) 1907/2006, [(ethoxymethoxy)cyclododecane, CAS: 58567-11-6, EC: 261-332-1; 2ethyl-4-(2,2,3-trimethyl-3-cyclopenten-1-yl)-2-buten-1-ol, CAS: 28219-61-6, EC: 248-908-8] is/are evaluated to be PBT or vPvB.

According to Regulation (EU) 2017/2100 or Regulation (EU) 2018/605, no substances are known to have endocrine disrupting properties.

Section 3

Composition/information on ingredients

3.2 <u>Mixtures</u>

In accordance with the product knowledge, no nanomaterials have been identified. The mixture does not contain any substances classified as Substances of Very High Concern (SVHC) by the European CHemicals Agency (ECHA) under article 57 of REACH: http://echa.europa.eu/fr/candidate-list-table.

4 ection

First aid measures

4.1 Description of first aid measures

General information:

In case of accident or unwellness, seek medical advice immediately (show directions for use or safety data sheet if possible).

Do not leave affected person unattended.

Remove victim out of the danger area.

Keep affected person warm, still and covered.

Following inhalation:

Remove person to fresh air and keep comfortable for breathing.

Following skin contact:

Remove contaminated, saturated clothing immediately.

After contact with skin, wash immediately with plenty of water and soap.

Take off contaminated clothing.

In case of skin reactions, consult a physician.

Following eye contact:

In case of eye irritation consult an ophthalmologist.

Rinse immediately carefully and thoroughly with eye-bath or water.

Remove contact lenses, if present and easy to do. Continue rinsing.

Following ingestion:

Never give anything by mouth to an unconscious person or a person with cramps.

IF SWALLOWED: Rinse mouth.

Do NOT induce vomiting.

Self-protection of the first aider:

First aider: Pay attention to self-protection!.

4.2 Most important symptoms and effects, both acute and delayed

The most important known symptoms and effects are described in the labelling (see section 2.2) and/or in section 11.

4.3 Indication of any immediate medical attention and special treatment needed

Notes for the doctor: Treat symptomatically.

Firefighting measures

5.1 Extinguishing media

5 section

section

Suitable extinguishing media: Foam. Extinguishing powder. Carbon dioxide (CO2). Sand. Unsuitable extinguishing media: Strong water jet.

5.2 Special hazards arising from the substance or mixture

Formation of toxic gases is possible during heating or in case of fire.

5.3 Advice for firefighters

Wear a self-contained breathing apparatus and chemical protective clothing.

Additional information

Do not inhale vapors and fumes.

Co-ordinate fire-fighting measures to the fire surroundings.

Move undamaged containers from immediate hazard area if it can be done safely.

Use caution when applying carbon dioxide in confined spaces. carbon dioxide can displace oxygen.

Use water spray jet to protect personnel and to cool endangered containers.

Collect contaminated fire extinguishing water separately. Do not allow entering drains or surface water.

6 Accidental release measures

6.1 <u>Personal precautions, protective equipment and emergency procedures</u>

Use personal protection equipment.

Remove persons to safety.

6.2 Environmental precautions

Ensure that waste is collected and contained.

In case of gas escape or of entry into waterways, soil or drains, inform the responsible authorities.

Avoid release to the environment.

Cover drains.

Ensure all waste water is collected and treated via a waste water treatment plant.

Do not allow to enter into soil/subsoil.

Do not allow to enter into surface water or drains.

Retain contaminated washing water and dispose it.

Contain leaks or spills within cabinets with removable trays.

6.3 Methods and material for containment and cleaning up

Treat the recovered material as prescribed in the section on waste disposal.

Collect in closed and suitable containers for disposal.

Clean contaminated objects and areas thoroughly observing environmental regulations. Collect spillage.

Absorb with liquid-binding material (e.g. sand, diatomaceous earth, acid- or universal binding agents). Wipe up with absorbent material (eg. cloth, fleece).

6.4 <u>Reference to other sections</u>

Safe handling: see section 7.

Disposal: see section 13. Personal protection equipment: see section 8. Additional information

Not available

Handling and Storage

7.1 <u>Precautions for safe handling</u>

PROTECTIVE MEASURES:

Avoid contact with skin, eyes and clothes. Wear personal protective clothing (see section 8). Sewers and ducts must be protected against the entry of the product. Do not put any product-impregnated cleaning rags into your trouser pockets. Provide for retaining containers, eg. floor pan without outflow. Avoid breathing gas/fumes/vapour/spray. **Advices on general occupational hygiene:** Wash hands before breaks and after work. Street clothing should be stored seperately from work clothing. Wash contaminated clothing before reuse. Remove contaminated, saturated clothing immediately. **In the immediate working surroundings there must be:** Provide eye shower and label its location conspicuously. **Conditions for safe storage, including any incompatibilities**

Keep container tightly closed in a dry, cool, and well-ventilated place. Keep container in upright position in order to prevent leakage. **Requirements for storage rooms and vessels:** Use isolated drainage to prevent discharge to soil.

Advice on joint storage:

Keep away from food, drink and animal feedingstuffs.

7.3 Specific end uses

Apart from the uses mentioned in section 1.2 no other specific uses are stipulated.

section **8**

7.2

Exposure controls/personal protection

8.1 Control parameters

Occupational exposure limits: Does not contain substances above concentration limits fixing an occupational exposure limit. Biological limit values: Not available Exposure limits at intended use: Not available

Remark: Not available

8.2 Exposure controls

Appropriate engineering controls:

Technical measures and the application of suitable work processes have priority over personal protection equipment. **Individual protection measures, such as personal protective equipment:**

itdb

Scent diamant

Skin protection

	Culture in a second second
:	Suitable eye protection:
	Wear eye protection equipment.
	Recommended eye protection articles:
	Eye glasses.
:	Hand protection:
	Suitable gloves type:
	Wear protective gloves.
	Additional hand protection measures:
	Do not wear gloves near machines and rotating tools.
	Use gloves only once.
	Remark:
	When handling with chemical substances, protective gloves must be worn
	with the CE-label including the four control digits.
	The quality of the protective gloves resistant to chemicals must be chosen
	as a function of the specific working place concentration and quantity of
	hazardous substances.
	For special purposes, it is recommended to check the resistance to
	chemicals of the protective gloves mentioned above together with the
	supplier of these gloves.
	Breakthrough times and swelling properties of the material must be taken
	into consideration.
	Body protection:
	Suitable protective clothing:
	Lab coat.
:	Suitable respiratory protection apparatus:
	No data available.
:

Information concerning to the classes of physical hazards Not available Other security characteristics Not available

10

Stability and Reactivity

10.1 Reactivity

No data available.

10.2 Chemical stability

The product is stable when stored at normal ambient temperatures.

10.3 **Possibility of hazardous reactions**

No hazardous reaction when handled and stored according to provisions.

10.4 Conditions to avoid

No data available.

10.5 Incompatible materials

No data available.

10.6 Hazardous decomposition products

Does not decompose when used for intended uses.

Additional information

Not available

🖞 **11** Toxicological information

11.1 Information on hazard classes as defined in Regulation (EC) No 1272/2008

Acute oral toxicity: The product is not classified. Substances: Not available Acute dermal toxicity: The product is not classified. Substances: Not available Acute inhalation toxicity: The product is not classified. Substances: Not available Skin corrosion/irritation: The product is not classified. Substances:

Not available Serious eye damage/irritation: The product is classified Eye Irrit. 2 according to the referenced regulation. Causes serious eye irritation. Substances: Not available Skin sensitisation: The product is classified Skin Sens. 1B according to the referenced regulation. May cause an allergic skin reaction. Substances: Not available Specific target organ toxicity (repeated exposure): The product is not classified. Substances: Not available Specific target organ toxicity (single exposure): The product is not classified. Substances: Not available **Carcinogenicity:** The product is not classified. Substances: Not available **Reproductive toxicity:** The product is not classified. Substances: Not available Germ cell mutagenicity: The product is not classified. Substances: Not available Sensitisation to the respiratory tract: The product is not classified. Substances: Not available Additional information: Not available

11.2 Information on other hazards

Endocrine disrupting properties:

According to Regulation (EU) 2017/2100 or Regulation (EU) 2018/605, no substances are known to have endocrine disrupting properties.

Ecological information

12.1 Toxicity

Toxic to aquatic life with long lasting effects. Substances: Not available

12.2 Persistence and degradability

The product has not been tested. **Substances:** Not available

12.3 Bioaccumulative potential

The product has not been tested. Substances: Not available

12.4 Mobility in soil

The product has not been tested. **Substances:** Not available

12.5 Results of PBT and vPvB assessment

In accordance with Regulation (EU) 1907/2006, [(ethoxymethoxy)cyclododecane, CAS: 58567-11-6, EC: 261-332-1; 2ethyl-4-(2,2,3-trimethyl-3-cyclopenten-1-yl)-2-buten-1-ol, CAS: 28219-61-6, EC: 248-908-8] is/are evaluated to be PBT or vPvB.

12.6 Endocrine disrupting properties

According to Regulation (EU) 2017/2100 or Regulation (EU) 2018/605, no substances are known to have endocrine disrupting properties.

12.7 Other adverse effects

Not available

Additional ecotoxicological information

Not available

الله **13** Disposal considerations

13.1 Waste treatment methods

Product/Packaging disposal:

Waste codes/waste designations according to EWC/AVV:

The allocation of waste identity numbers/waste descriptions must be carried out according to the EEC, specific to the industry and process.

Waste treatment options:

Appropriate disposal/Product:

Waste requiring special supervision.

Dispose of waste according to applicable legislation.

Delivery to an approved waste disposal company.

Appropriate disposal/Package:

Non-contaminated packages must be recycled or disposed of.

Contaminated packing must be completely emptied and can be reused after proper cleaning.

Packing which cannot be properly cleaned must be disposed of.

Handle contaminated packages in the same way as the substance itself.

Dispose of waste according to applicable legislation.

Remark:

For recycling, contact manufacturer.

Collect the waste separately.

Consult the appropriate authorities about waste disposal.

Do not mix with other wastes.

The waste is to be kept separate from other types of waste until its disposal.

Concerning the waste it has to be checked, whether a transport authorisation is required.

No data available.

<u>Classification for mixtures and used evaluation method according to regulation (EC)</u> 1272/2008 [CLP]

Complies with ATP 18, Regulation (EU) n°2022/692.

Classification of the mixture is in accordance with the evaluation method described in Regulation (EC) No 1272/2008.

Relevant R-, H- and EUH-phrases (Number and full text)

H302	Acute Tox. 4 ORAL	Harmful if swallowed
H315	Skin Irrit. 2	Causes skin irritation.
H317	Skin Sens. 1B	May cause an allergic skin reaction.
H319	Eye Irrit. 2	Causes serious eye irritation
H361	Repr. 2	Suspected of damaging fertility or the unborn child.
H400	Aquatic Acute 1	Very toxic to aquatic life.
H410	Aquatic Chronic 1	Very toxic to aquatic life with long lasting effects.
H411	Aquatic Chronic 2	Toxic to aquatic life with long lasting effects.

Training advice

Refer to Sections 4, 5, 6, 7 and 8 of this safety data sheet.

Additional information

Creation date: 31/10/2024 Version date: 31/10/2024 Printing date: 31/10/2024

The information given in this Safety Data Sheet is based on our present knowledge and on European and national regulations. This Safety Data Sheet describes safety requirements relative to identified uses, it doesn't guarantee all the product properties particularly in the case of non identified uses. The product mustn't be used for any uses other than those identified under heading 1. Since the user's working conditions are not known by us, it is the responsability of the user to take all necessary measures to comply with legal requirements for specific uses and avoid negative health effects.
