If irritation appears, remove any contaminated clothing . Wash affected areas thoroughly with soap and water.
If irritation persists or any sign of tissue damage is apparent, obtain medical advice.

On contact with eyes :

Immediately wash affected eyes for at least 15 minutes under running water with eyelids held open,consult an eye specialist

On ingestion :

Rinse mouth immediately with water. Don't drink anything. Do not intend make vomit and seek medical attention.

Avoid contact with skin and inhalation of vapors. Ensure adequate ventilation of the workplace.

6.2. Environmental precautions.

Avoid direct discharge to sewer, surface water and groundwater, not make to penetrate into the soil.

6.3. Methods and material for containment and cleaning up.

Absorb material with inert absorbent powder or granules (sand ...)

Major spills should be absorbed by sand or inert powder and destroyed of according to applicable regulations. If rags are used to wipe up, quickly get rid of by incineration, as cases of auto-oxidation with spontaneous combustion are known.

Clean dust with a vacuum cleaner. Wash with detergent and water.

Reduction of gases / fumes with water projection.

6.4. Reference to other sections.

For exposure control and personal protection measures, see section 8.

For considerations of waste disposal, see section 13.
